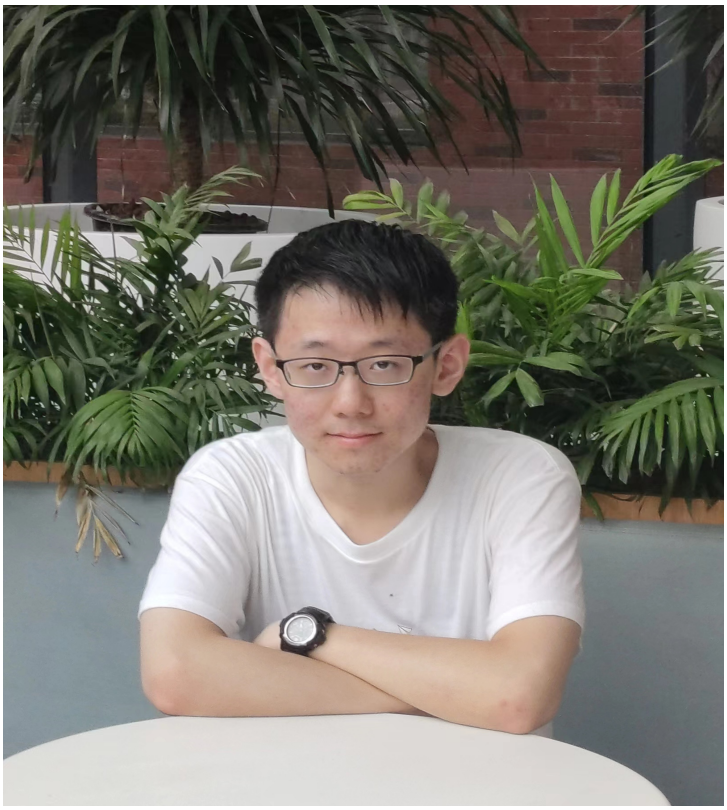
About Me



Hi, I'm Shuqing Luo, a 1st-year graduate student majoring in ECE at Peking University. I obtained by B.Eng from School of Cyber Science and Engineering at Shanghai Jiao Tong University, advised by Prof. Shilin Wang. I also work as a research intern at Chinese University of Hong Kong, advised by Prof. Xiangyu Yue.

Academic Background

[Highlight] I am looking for PhD to start in 2025 Fall. Contact me if you have any leads!

- **Sep 2020 - June 2024:** Fuzhou University (BEng)
- **Sep 2020 - June 2024:** Maynooth University (BSc)
- **June 2022 - Nov 2022:** Cambridge University (Exchange)
- Expect to apply for a one-year Mphil program and graduate in Sep 2025. Looking for PhD position after that.

Research Interests

- Industrial IoT System
- Network Cybersecurity
- Applied Machine Learning

My current research focuses on practical problems that artificial intelligence faces in real life. My interests are on the **Machine Learning** and its applications in **Industrial IoT**. In a word, advanced technologies like ML and IoT positively influence the life of everybody. I wish to devote my talent to this meaningful cause and bring well-being to society.

News and Updates

- **Sep 2023：**Our work DefenderIoT has been reported by Youth of FZU.
- **Aug 2023：**Happy to be awarded the FEPG Scholarship.
- **May 2023：**Happy to be awarded the XiamenAir Scholarship.
- **May 2023：**Collected the Finalist Award in MCM 2023 (Top 1%).
- **Jan 2023：**One paper accepted to ICAROB 2023, see you in Japan!
- **Jun 2022：**Started research program at Cambridge AI Group, advised by Prof. Pietro Liò.
